**Laterals waste  
floor space**

**Aurora Quik-Lok stores  
more in a smaller footprint**

Try storing binders, computer equipment, retail goods, or product samples in lateral cabinets. Aurora Shelving is versatile enough for anything you want to store. Flexible, reconfigurable Aurora Quik-Lok Shelving can store more and save valuable floor space.

# AURORA QUIK-LOK® SHELVING

**Aurora can help.** When compared to standard lateral filing systems, Aurora Shelving can greatly reduce the amount of square footage required. Turn your imagination loose.... more reading areas in the library, more workstations in the office, more counterspace in your store... more of everything.

# MORE STORAGE, MORE SPACE

## More of everything with Aurora Quik-Lok Shelving.

### Why waste space?

In the same room, 20 four-drawer lateral cabinets give you 3200 filing inches. With Aurora, six 7-tier sections of double-entry shelving give you 3360 filing inches. You gain more storage and use only 50% of your space!

With Aurora Shelving you save 50% of your floor space.
